PROJECTS

NOVA All Access Course Cost Comparison

- Built a 400+ row Excel dataset based on courses from the MTSB division of the college, analyzing course material costs during my time as an IET Assistant, highlighting cost differences between flat-rate and traditional pricing.
- Applied data visualization and color-coding to communicate insights clearly to leadership.

Computer Desktop Builds & Upgrades

- Built and configured 3 custom desktop PCs (motherboards, CPUs, GPUs, RAM, storage).
- Performed OS installation, BIOS updates, driver configuration, and troubleshooting if needed.
